

Rollman
INTERNATIONAL

**Fast, easy
and comfortable
ironing**

Perfect ease of ironing

The famous ironing roller, once a must have item in almost every household, is returning in big style. With advanced functionality and modern design, the Rollman machine takes the ironing experience to a whole new level. Safe to use, mobile and easily foldable, it requires little storage space and quickly and effortlessly irons even the most demanding long fabrics. **Sit back, relax and enjoy the art of ironing.**

For whom is Rollman intended?

The significantly faster ironing speed compared to the hand iron makes Rollman ideal for families with children, as well as catering facilities, hotels, hostels and all objects that require a large amount of laundry on a daily basis. Additionally, the fineness of linen ironed with a roller machine is extremely difficult to achieve with a hand iron.

15kg
of ironed laundry

45 - 60 minutes
on average needed for ironing with the **Rollman ironing machine**

210 - 240 minutes
on average needed for ironing with a **hand iron**

By how much does Rollman reduce the time of ironing?

	Regular iron	Rollman iron
Shirt	7' 50"	3' 10"
T-shirt	2' 20"	0' 28"
Tracksuit bottoms	3' 20"	1' 10"
Tracksuit top	4' 20"	3' 10"
Bed sheet (double) 130x180cm	15' 00"	3' 30"
Bed cover (double) 150x220cm	14' 00"	3' 20"
Pillowcase	2' 55"	0' 22"
3 pcs, towel 80cm	5' 10"	0' 40"
Round tablecloth, 84cm in diameter	2' 55"	0' 25"
Apron (work coat)	7' 40"	2' 40"
Curtain 300x240cm	20' 00"	2' 30"

*The table shows the average ironing time in minutes. The measurement was performed on a sample of 100 adults internally by the manufacturer.

Why choose Rollman?

MOBILE

Wheels on the stand of the machine ensure easy movement of the machine in the work space

SAVES ELECTRICITY

You can choose whether to switch on only the left or the right side, or the entire length of the ironing board

SAVES TIME

Spend up to 6 times less time compared to manual ironing

TAKES CARE OF USER'S HEALTH

Ergonomic position during ironing contributes to the protection of the spine and lower back, with no strain on your feet

EASILY FOLDABLE

Allows easy switching from vertical to horizontal position and vice versa

IRONS ALL KINDS OF FABRICS

Successfully irons all fabrics of all lengths

SAFE TO USE

Mechanical protection prevents hand access to the heated parts of the machine during ironing

OCCUPIES LITTLE STORAGE SPACE

The folded ironing machine occupies an area of 0.26 m², as much as a regular floor lamp or bedside table

FACILITATES STORAGE OF LAUNDRY

Contains a carrier that allows for practical stacking of laundry after ironing

LONG POWER CABLE

The length of the connecting cable is 1.85 m and can be extended depending on user requirements

EASY TO MAINTAIN

The cover is easy to wash / exchange

Characteristics

Dimensions in working position	L: 985 mm / W: 450 mm / H: 1000 mm
Folded dimensions	L: 585 mm / W: 450 mm / H: 1070 mm
Weight	45kg
Length of the roller and ironer	800mm
Roller diameter	150mm
Roller speed	4-10 rpm
Ironer temperature	0-185°C
Maximum ironer temperature	205°C, limited by 2 safety switches
Ironer heating zone	Left half, right half, full length of ironing part
Ironer pressure on the roller	It is realized via a lever with a spring adjusting force
Electrical connection	230V AC, 50 Hz, grounded socket
Type and number of heaters	Rod heaters 4 pieces
Installed rated power	Model 80151000012E - 2500 W
Heater power	Model 80151000012E - 4X 0.6kw
Control voltage	24 V DC, provided by a transformer and adapter
Roller engine	24 V DC, snage 60 W
Roller ironer approximation engine	24 V DC, snage 60 W

Quality, safety and environmental protection

Taking into account your needs, the Rollman ironing machine is designed to meet all standards in terms of safety, user-health and environmental protection, thus making it **fully compliant with all essential requirements of the Republic of Serbia and the European Union.**

Rollman holds an EU-TYPE examination certificate and LVD certification, which allows the CE mark to be affixed to the product. The product also has a Declaration of Conformity, which confirms that it meets the requirements of the Electromagnetic Compatibility Regulation.
